10 PRETREATED WIPES

F1 FENTANYL Testing Wipes

Fentanyl is the leading threat faced by law enforcement and those public health and emergency workers charged with keeping our communities and our citizens safe from this deadly scourge. Trace Eye-D's fentanyl detection safety wipe is the easiest, fastest, and most affordable product for the instant detection of fentanyl. Just open the pouch, take out the wipe and apply it to a surface or substance that you suspect and in seconds, not minutes, you will have clear and accurate result. If fentanyl or any of its analogues are present, the wipe will instantly show a pink color. Easily dispose of the wipe in the common waste stream with no special neutralizing steps required.

Methamphetamine

M39 METHAMPHETAMINE
Testing Wipes

10 PRETREATED WIPES

M39 METHAMPHETAMINE Testing Wipes

Our methamphetamine detection safety wipes are the fastest and most convenient way to test for the presence of methamphetamine on any surface. Simply wipe the suspected surface with the testing wipe and get instant results. The testing wipe will change to a blue/purple color if it detects the presence of methamphetamine, MDMA, and GHB. These wipes are ideal for law enforcement professionals, drug rehabilitation centers, and anyone looking to quickly and accurately test for the presence of methamphetamine. Each package contains 10 individual testing wipes, so you'll always have one on hand when you need it. Trust our methamphetamine testing wipes to provide reliable results every time.
