

We are developers and manufacturers of patented colorimetric chemical wipe products for **instant detection of surface drug and explosives**.

All Trace Eye-D products are manufactured in the USA, using the highest quality industry standards.

Our goal is to address growing public and private security and safety needs.

Our mission is to make the world a safer place.

Using Trace Eye-D Instant Detection Wipes is as easy as

Open. Wipe. Look.

#OWLmethod

THE CHALLENGE

New Detection Capabilities Needed

NEED

First responders and public safety providers **need a convenient and effective method of quickly identifying** dangerous or illicit substances.

OPPORTUNITY

Previous generations of technology have **limitations including high cost, lack of portability and lengthy, complex training.**

REQUIREMENT

Threats of explosives and dangerous drugs are an ever-evolving menace to national security and public health that **require new capabilities for our front-line first responders.**

OUR SOLUTION

Instant Detection Made Simple

Trace Eye-D has invented an innovative line of patented, disposable color-changing wipes that are highly portable and accurate in confirming the presence of suspected explosives or narcotics.

IDENTIFIABLE FORMS

Instant Detection

powders pills liquids residue trace bulk

NARCOTIC DETECTION WIPES

FEATURES + BENEFITS

Ease of Use - As simple as Open. Wipe. Look. Positive result will match packaging color

Safe to Use - No glass ampoules that could cause injury

Safe to Use - F1 Fentanyl Wipe is now approved as safe to use on skin

Fast results - Results are instant, no mass quantity required

Wipes can test many forms - Powders, pills, liquids, residue, trace, bulk

Convenience - Lightweight + compact + durable

Environmentally Safe - Can be disposed of in the common waste stream

Training - Demo + Q+A sessions for customers

Training - Online certificate course to assist in flexible large group training for customers
